**Senior Awards:** Yes-colleges are NOT able to attend

**Social Media:** Twitter

**Average Senior Class Size:** 145

**Average ACT Score:** 18.7

**What makes your school unique?** Bardstown is known as "The Most Beautiful Small Town in America." Our school is steeped in tradition and most students are from alumni families. The benefit of that is that it keeps spirit alive and well throughout generations. The drawback is that many of our students have a limited awareness of the rest of the world that is available to them. Our school is small (appx. 650 students), but we have a diverse mixture of students in regard to both race and socio-economic backgrounds.

## High School Information

**School Name:** The Barren Academy of Virtual and Expanded Learning (BAVEL)

**Senior Counselor:** Melinda Owens

**School Visit Policy:** We are a virtual high school. We would be interested in having some "online visits" for our students throughout the year. We are equipped with the technology - all college admissions counselors would need is an internet connection.

**Social Media:** Facebook

**Average Senior Class Size:** 50

**Average ACT Score:** 19

**What makes your school unique?** The Barren Academy of Virtual and Expanded Learning (BAVEL) was established in 2004 by innovative minds who envisioned giving parents and their children another option in seeking a high school diploma. BAVEL is a public school recognized by the Kentucky Department of Education. In addition, BAVEL is accredited by the National Collegiate Athletic Association (NCAA). BAVEL curriculum is provided primarily by Florida Virtual Global School (FLVS), in addition to Dual Credit partnerships with numerous Kentucky colleges and universities.

BAVEL serves a diverse population of students - grades 6 through 12 - from public, private and home schools. BAVEL students have been identified as everything from gifted and talented to students at-risk. However, BAVEL doesn't focus on the labels; it focuses on the students to provide a meaningful and challenging learning environment for all BAVEL students outside the walls of a traditional public.

Twitter: <https://twitter.com/pldguidance>

**Average Senior Class Size:** 475

**Average ACT Score:** ACT: 22.3; SAT: 2100

**What makes your school unique?** Paul Laurence Dunbar is a fully accredited, comprehensive high school and home of the highly selective Math, Science, and Technology Center. MSTC is a magnet program for identified gifted students in Math or Science. We offer 72 Advanced courses, 3 Dual Credit courses, and 26 Advanced Placement courses. Our school has a strong reputation and our students' successes back up that reputation! In addition to the strong ACT and SAT test scores, we consistently produce numerous National Merit Finalists each year as well as National Achievement Finalists and Presidential Scholars.

**Additional Comments:** NEW FOR THIS YEAR: Our SBDM council voted to end the practice of ranking our students. We will provide statistical information in our school profile that will still provide colleges with school performance, but we will no longer rank our students.

Our school is in the process of investigating and moving towards a standards based grading system. As we move away from a traditional grading system and to standards based grading, students' grades will be a more direct reflection of their knowledge and skills. Not all teachers in all subjects are employing this grading method as of yet, but there is at least one teacher in all core subjects

## High School Information

**School Name:** Elkhorn Crossing School (Scott County High School)

**Senior Counselor:** Maria Lyons @ Scott County High School

**College Fair Info:** Wednesday, November 4th. Students rotate through presentation labs.

**What makes your school unique?** ECS will serve approximately 864 students from Scott County High School and Scott County Ninth Grade School for the 2015-16 school year. The focus of Elkhorn Crossing is curriculum integration across core content and career based disciplines where students will learn critical thinking skills, presentation skills, a strong work ethic, and the ability to collaborate with others. ECS is an extended campus of SCHS offering students a different methodology of learning.

### \*General School Philosophy

ECS is an inquiry-based school where the lines between “technical” and “academic” are deliberately blurred. All students will use technology to research, produce, and present across disciplines. Much of the class work will be project based and apply to real world application.

### \*What is curriculum integration?

Curriculum at ECS is framed around answering questions and solving problems. Integration at ECS means that we address issues as they are found in the real world—in teams, studying questions and themes that cut across academic disciplines within a school village. It means that teachers collaborate within a village to develop coherent programs by intersecting their curriculums wherever possible. Each course within the village will meet the Kentucky Department of Education (KDE) program of study requirements.

### \*Teacher Collaboration

The ECS philosophy is that small, personalized learning villages make for better high schools. Each village consists of three highly skilled teachers collaborating to intersect their respected disciplines. Each area of concentration is equally important in the students’ overall educational experience. We believe in the value of teaching teams and project based learning. This methodology will provide students a high quality broad-based education that will serve them well in all phases of adult life.

### \*The Report Card

We choose to report our assessment of students through traditional looking grades and traditional looking classes in the same format as SCHS. Parents also have the opportunity to discuss their student’s progress with their teachers during parent teacher conferences. ECS wants each student to work toward a “School to Career” thought process. This process requires students to learn what professionals refer to as “soft skills.” These soft skills are the ability to work with others, problem solve, develop public speaking skills, and maintain a professional positive attitude.

### \*ECS students will be graded on the following areas:

1. Content - Reflects the student’s mastery of the course content.
2. Work Ethic/Effort - Reflects the student’s commitment to complete assignments & attend class.
3. Collaboration - Reflects the student’s ability to work in a group.
4. Critical Thinking - Reflects the student’s ability to analyze & synthesize information.
5. Writing Mechanics - Reflects the student’s mastery of grammar, spelling, & literary content.
6. Project/Proposal - Reflects the student’s progress/completion with accompanying research.
7. Presentation Skills - Reflects the student’s ability to present information effectively to audiences.
